## Harvard Puzzle "Observatory"

**Instructions:** Guess the words defined by the cryptic clues (answers vary in length from three to ten letters, two are capitalized, and one is foreign) then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Eight across words and nine down words won't fit in the grid unless one of their letters is removed. Those seventeen letters, taken in order as they occur in across and down words, spell a three-word phrase related to the puzzle's title. Thanks to Kevin Wald '93 for test-solving and editing this puzzle.

## Across

- 1. Editing Poe, select and shorten
- 2. Chief to suspend edition's first revision
- 3. Dwarf's feat of dexterity
