## Harvard Puzzle "Botanist"

**Instructions:** Guess the words defined by the cryptic clues (answers vary in length from three to nine letters, and six are capitalized) then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Three across words and four down words won't fit in the grid unless one of their letters is removed. Those seven letters, taken in order as they occur in across and down words, spell a name related to the mystery entry. Thanks to Kevin Wald '93 for test-solving and editing this puzzle.

## Across

- 1. Adelphi's first tutor is a very handsome guy 1.
- 2. Bishop leaves Victoria's husband in alarm
- 3. Layer with cerium from this source
- 4. In no time boy eats egg
