## Harvard Puzzle "HarvardX"

**Instructions:** Guess the words defined by the cryptic clues (answers vary in length from three to eight letters, three are capitalized, one is an acronym, and one is a two-word phrase) then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Twelve across words and twelve down words won't fit in the grid unless one of their letters is omitted. Those twenty-four letters, taken in order as they occur in across and down words spell a four-word phrase related to the puzzle's title.
