Puzzle #11 — April 2002 "April"

Instructions: Guess the words defined by the cryptic clues (words vary in length from three to nine letters and include four proper names, a foreign word, and an acronym), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next line, and down words that don't end at the bottom continue in the next column. Eight across words and eight down words won't fit in the grid unless one of their letters is removed. Those sixteen letters, taken in order, spell a three-word phrase related to the title of this puzzle. The three unclued *mystery* words are similarly related.
