Puzzle #17 – October 2002 "Chicago Cubs"

Instructions: Guess the words defined by the cryptic clues (words vary in length from three to nine letters), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right margin continue on the next line below. Down words that don't end at the bottom margin continue in the next column to the right. Five across and five down words won't fit in the grid unless one of their letters is removed. Those ten letters, taken in order, spell a twoword phrase related to the three mystery words. Answers include six proper names. As ever, I am grateful to Kevin Wald for help with the clues.
