## Guest Puzzle #36 – July 2011 "Connect the Dots" (by Arthur Schless)

**Instructions:** Guess the words defined by the cryptic clues (answers vary in length from three to ten letters, and seven are capitalized) then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Five across words and five down words won't fit in the grid unless three of their letters are replaced by an appropriate symbol. Another five across words and five down words won't fit in the grid unless one of their letters is removed. Those ten letters, taken in order as they occur in across and down words, spell a familiar, but incomplete, name. The title of the puzzle suggests how to complete it.
