

Puzzle "John Harvard"

Instructions: Guess the words defined by the cryptic clues (words vary in length from four to nine letters, and four are capitalized), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Ten across words and nine down words won't fit in the grid unless one of their letters is removed. Those nineteen letters spell a three-word phrase related to the title of this puzzle. (Thanks to Kevin Wald '93 for test-solving and editing this puzzle.)
