

Puzzle #45 – February 2005 "Surface Tension"

Instructions: Guess the words defined by the cryptic clues (words vary in length from three to eight letters and include four proper names), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right margin continue on the next line below; down words that don't end at the bottom margin continue in the next column to the right. Six across and five down words won't fit in the grid unless one of their letters is removed. Those eleven letters, taken in order, spell a word related to the five mystery entries. As ever, I am indebted to Kevin Wald for help with the clues.
