Puzzle #70 — March 2007 "Jigsaw Puzzle II"

Instructions: Guess the words defined by the cryptic clues (words vary in length from three to thirteen letters; one is hyphenated and three are capitalized), then enter them in the grid starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Warning: Clues are listed in the alphabetical order of their answer words, not in the order in which those answer words are to be entered in the grid. Solvers must determine that order on their own. I thank Kevin Wald for help with the clues.
