

Guest Puzzle #35 – June 2011 "Product 19" (by Dexter Senft)

Instructions: Guess the words defined by the cryptic clues (answers vary in length from 4 to 10 letters; one is capitalized) then enter them into the pattern, one after another in the same order as their clues, starting in the shaded box at the top and going to the next adjacent box in a clockwise direction. Upon reaching the inner (or outer) edge of the pattern, make a right angle turn and continue to the next adjacent box, always in a clockwise direction. In this way, you will pass through every box, sometimes twice. The last letter of the last word will be in the shaded box. Thirteen words will not fit in the pattern unless one of their letters is removed. Those letters, taken in order as they occur in the words, spell a word related to this puzzle. Thanks to John de Cuevas for his many helpful comments and suggestions.
