

Puzzle

"Capital Campaign"

by John de Cuevas

Instructions: The words defined by the cryptic clues (see next page) are to be entered normally in the grid below (heavy bars separate entries), except that eight of them are a letter short and won't fit in the grid unless they receive a gift. So solvers are asked to contribute a letter to each of them. The added letter should spell a new word (not defined by any clue) without changing the letter order of the original word. For example, A might be added to MEN to spell AMEN or MEAN, but not NAME or MANE. The eight letters thus added, taken in order as they occur in across and down words, should spell an eight-letter word appropriate to the title and theme of the puzzle. Answers include one proper name.
